Women's Weaknesses, Childhood's Changes

A hard-working, industrious woman, active, and to all entward appearances healthy. a woman used to doing all the work about her home and sometimes pring out to service, relates that when she lived at Cryster Hay. Long Island, and especially on treeting day when confined to a hot laundry, she would often become faint, a condition usually preceded by a shartness of breath. At times the could beingly keep up to come out into
the fresh air to refresh berself. After the moved to New Veri, the shortness of breath affected her when working in a close room or after climbing stairs. At one time while so suffering, she was recommended to try some Ripson Tabeles. The improvement in her breathing was such that she felt greatly relieved and she new breas the Tabules. always at hand, and store she has done this she may that the faintness has not been noticed and she can now readily climb stairs or work in a close men without any of the symptoms of distress which formerly opposited her. When this experience was related to a physician who is familiar with Riyana Tabules, he said: "The Tabules are not advertised in case falatiness or shortness of lavesh, and my impression is that the symptoms referred to were caused by the stomach being distended with gas, as it sometimes to be noted with persons who use vegetable food mainly. Pecatoes or call-bage," he said, "I were quite likely to produce such a condition."
